

Velocette

**QUALITY-BUILT
MOTOR CYCLES**

MAC '350' O.H.V.

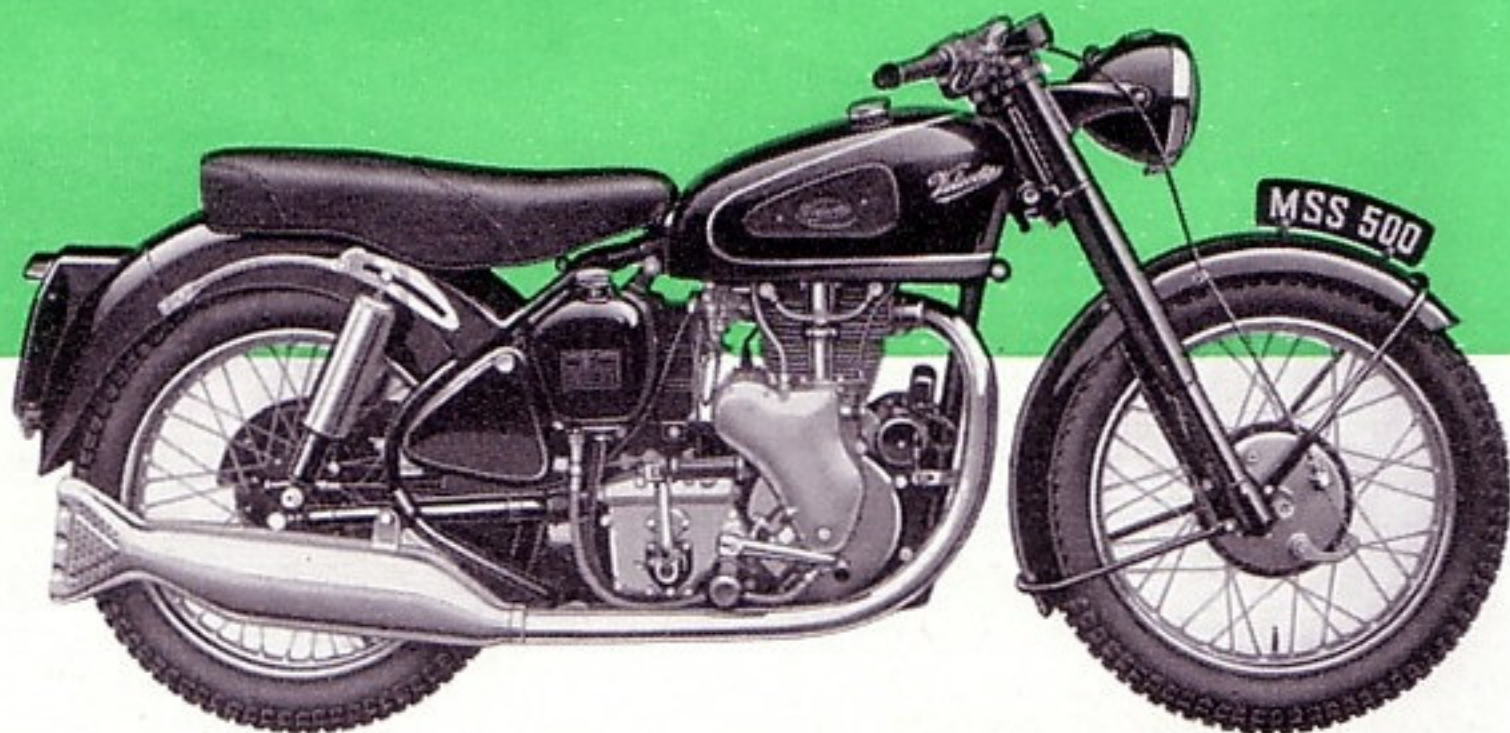

This popular '350' combines a sparkling performance with absolute reliability. Short rigid crankshaft assembly gives smooth running and permits a narrow chain line throughout the transmission. General specification similar to MSS (below).

Standard finish in Black or Green, Gold and Chromium. Chromium tank extra.

MSS '500' O.H.V.

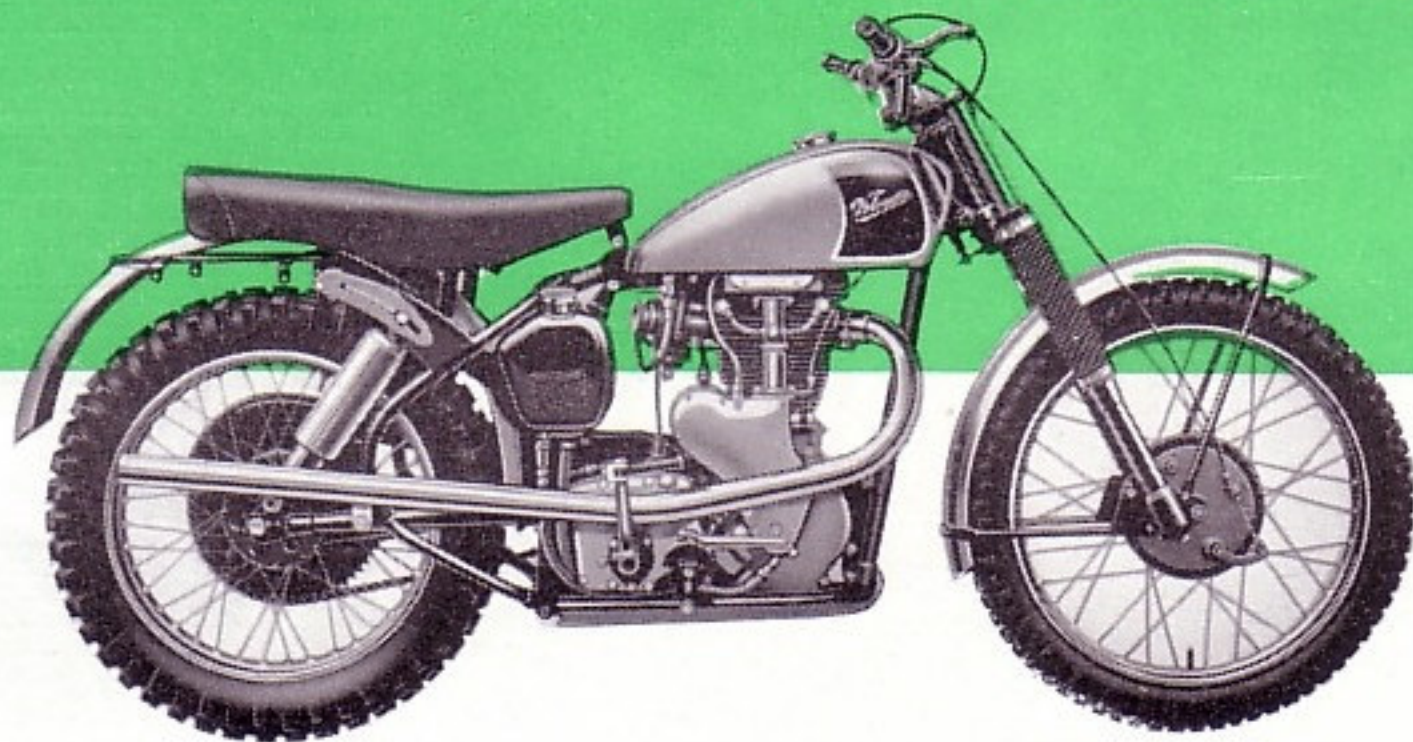

Single cylinder O.H.V. aluminium alloy cylinder head, helical timing gears, magneto ignition with automatic control, patent Velocette swinging arm rear suspension, both wheels quickly detachable, 7" brakes. The MSS, apart from being a lusty solo mount, is also suitable as a sidecar machine.

Standard finish
in Black or
Beige, Gold and
Chromium.
Chromium tank
extra.

THE *Scrambler* '500' O.H.V.

Developed from the MSS, this model is especially designed for its purpose. With specially prepared engine, having 8.75 to 1 compression ratio, special cams and racing Amal carburettor ($1\frac{1}{8}$ " bore) this machine already has many successes to its credit. The telescopic forks are damped both ways. Competition tyres are fitted.

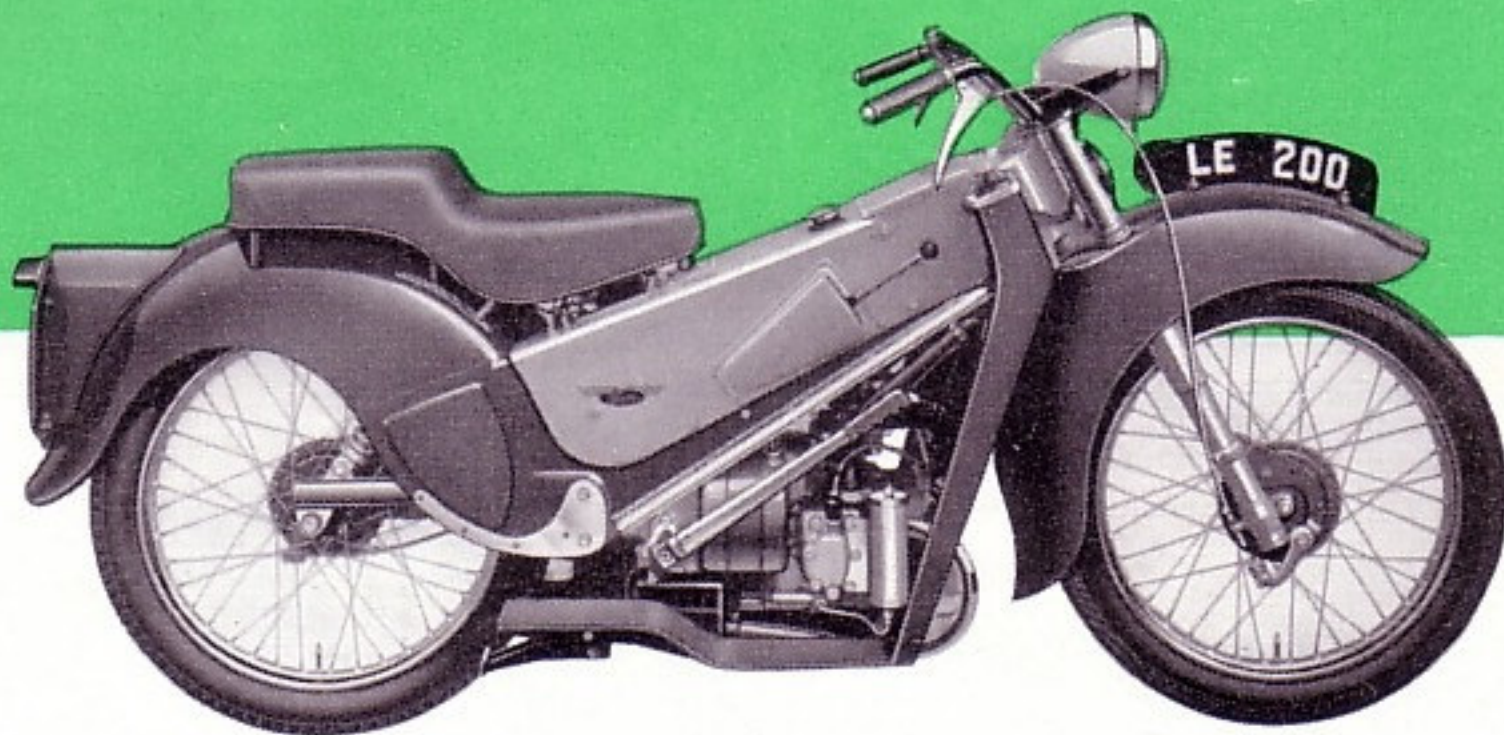

Special features include $2\frac{1}{2}$ gallon slim tank, low gear ratios and engine under-shield.

THE

Silent

L.E.

This famous '200' c.c. model with water-cooled flat twin engine, shaft drive, hand starting and full weather protection has become famous as the world's quietest two-wheeler. Legshields are standard equipment. Extras include choice of rectangular or streamlined panniers, dual seat and dual colour finishes.

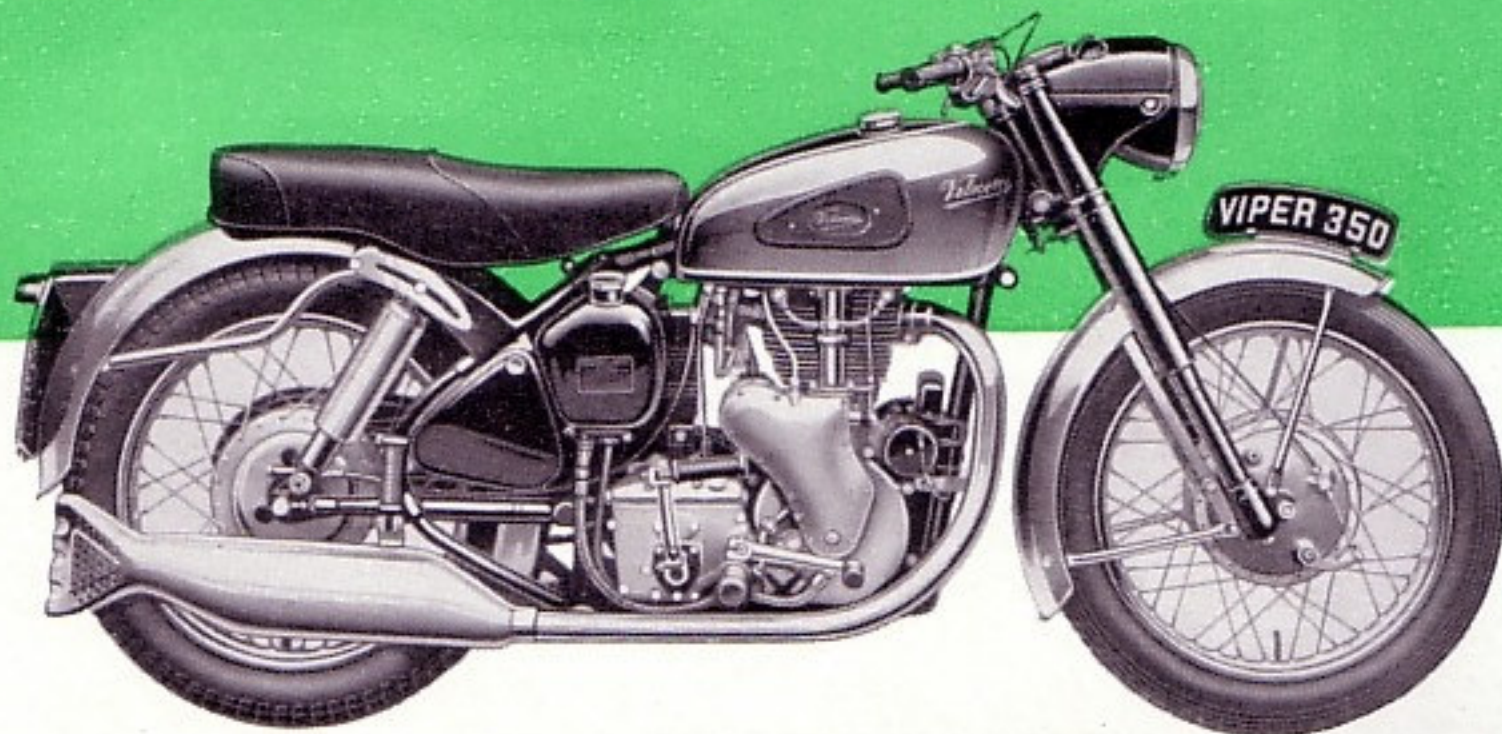

Standard finish
Silver Grey.
Dual colours :
Blue, Green,
Ruby, Dove
Grey, used in
conjunction
with the stan-
dard Grey finish
extra.

THE NEW

Viper

**'350' SPORTS
O.H.V.**

This high performance sports machine has a single cylinder engine with alloy head and alloy jacketed barrel. Hairpin valve springs, high compression piston and an Amal Monobloc type carburettor are fitted. Taper roller main bearings, closely spaced, support a short and extremely rigid crankshaft assembly.

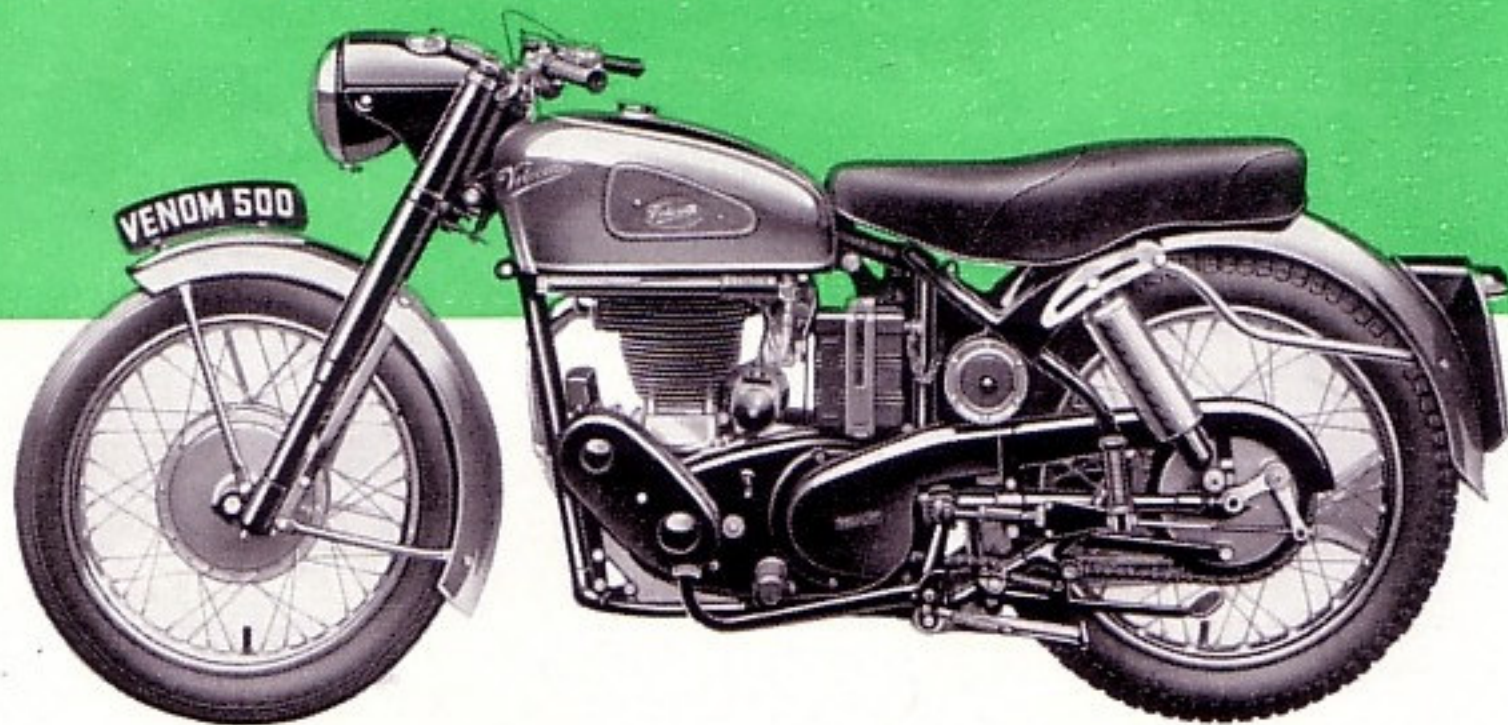

Standard finish is Black, Gold and Chromium. The Viper is also available in Green at no extra.

THE NEW

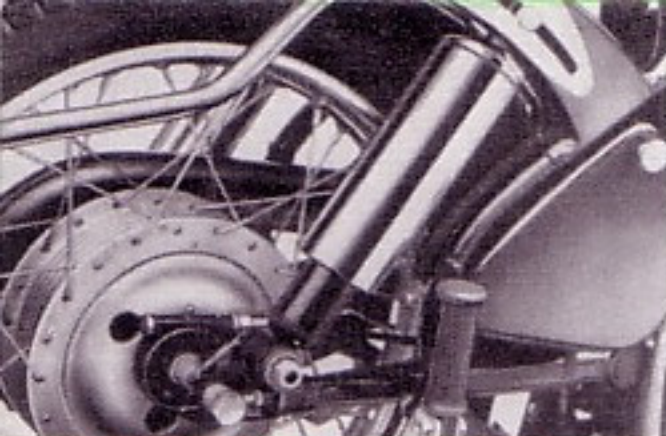

Venom

**'500' SPORTS
O.H.V.**

Similar in all respects to the Viper except in engine capacity this new sports model and its '350' brother have full-width alloy hubs front and rear (both wheels are quickly detachable), new $7\frac{1}{2}$ " dia. front brake, ribbed front tyre, new streamlined headlamp cowl and patent adjustable swinging arm rear suspension.

Standard finish is Black, Gold and Chromium. The Venom is also available in Dove Grey at no extra.

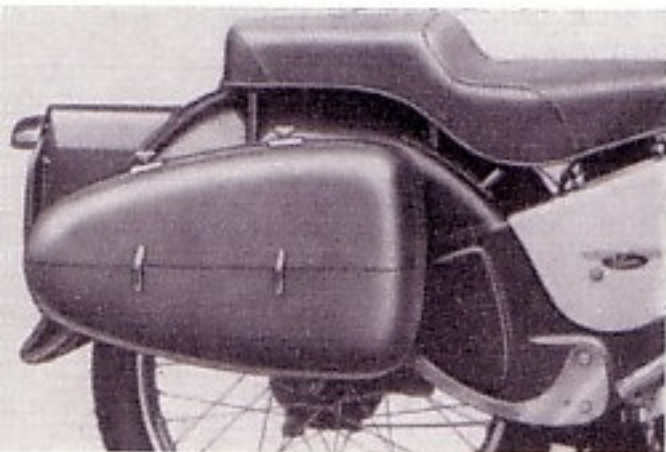

Quickly detachable rear wheel with full-width hub, Viper and Venom.

New streamlined headlamp cowl with instruments and switch, Viper and Venom.

Quickly detachable front wheel, $7\frac{1}{2}$ " brake, full-width hub, Viper and Venom.

New streamlined metal panniers, supplied as extras L.E. model.

Starting requires lightest effort by hand lever, L.E. model.

Full protection for nether garments, coloured legshields are standard L.E. model.
