Honda CB 1100 F

A classic Honda UJM, an air cooled in-line four that is so 80s but also so modern and desirable.. If you are tired of the hi-tech superbikes, the tall adventure enduros, the water-cooled heavy retros, then this may be for you.

Honda displayed it at the 2007 Tokyo Motor Show. Tracing its roots from the legendary Honda CBs (750, 900, 1100) of the late 70s and early 80s, it seems to have everything right: Beauty, simplicity, feeling.. :

(http://www.youtube.com/watch?v=iN_wcRYIIy8)

Production is not confirmed although several sites reported that it may hit the floors by 2009. We are only hoping..
